Answer sheets
Smart cucumber

TEAM
Students $\qquad$

## Problem 1 - Water hardness

1.1.1. Write chemical reactions occurring during Step 5 the EDTA standardization: (2 p)

| Reactions | Marks |
| :--- | :--- |
|  |  |
|  |  |

1.1.2. Write the volumes of EDTA solutions you used for each titration. Circle the ones you will use for calculation (4 p)

| Volume of EDTA solution, $m L$ | Marks |
| :--- | :--- |
| 1. |  |
| 2. |  |

1.1.3. Calculate exact concentration of your EDTA solution. Show your calculation. (3 p) Copy the exact magnesium sulfate standard solution concentration from bottle: $\qquad$ $\mathrm{mol} / \mathrm{L}$

| Calculations: | Marks |
| :--- | :--- |
|  |  |
| Total |  |
| CEDTA $=$ mmol/L |  |

### 1.2. Determination of water hardness

1.2.1. Write chemical reactions occurring during the Step 4 of the determination of water hardness. (2 p)

| Reactions | Marks |
| :--- | :--- |
|  |  |
|  |  |

1.2.2. Write the volumes of EDTA solutions you used for each titration. Circle the ones you will use for calculation (4 p)

| Volume of EDTA solution, $m L$ | Marks |
| :--- | :--- |
| 4. |  |
| 2. |  |

$\square$
1.2.3. Calculation of water hardness (3p)

| Calculations: | Marks |
| :--- | :--- |
|  |  |
| Chardness = _Total |  |
| mmol/L |  |

1.2.4. Classify your water sample according to the water hardness by placing an $X$ in the correct assessment (1p)

| Water hardness |  | Marks |
| :--- | :--- | :--- |
| Soft |  |  |
| Moderately hard |  |  |
|  |  |  |
| Hard |  |  |
| Very hard |  |  |

### 1.3. Determination of calcium ion concentration

1.3.1. Write chemical reactions occurring during steps 2 and 4 of the determination of calcium ion concentration. (3p)

| Reactions | Marks |
| :--- | :--- |
|  |  |
|  |  |

1.3.2. Write the volumes of EDTA solutions you used for each titration. Circle the ones you will use for calculation (4p)

| Volume of EDTA solution, $m$ l | Marks |
| :--- | :--- |
| $\mathbf{4}$. |  |
| 2. |  |
|  |  |

1.3.3. Calculation of $\mathrm{Ca}^{2+}$ ion concentration ( $3 p$ )

| Calculations: | Marks |
| :--- | :--- |
|  |  |
| $\boldsymbol{c}\left(\right.$ Ca $\left.^{2+}\right)=\ldots$ |  |
| Total |  |
| mmol/L |  |

### 1.4. Calculation of magnesium ion concentration

1.4.1.Show your calculation and final result (2 p)

## Problem 2 Preparation of hydroponics feeding solution

2.1.1. Use the composition information of the fertilizer and write down what ions will be present in the fertilizer solution, if it consists only of part of the given salts and can be fully dissolved in the water! (4p)

|  | Mass fraction, \% | lon | Marks |
| :--- | :--- | :--- | :--- |
| N | 10 |  |  |
| N | 5 |  |  |
| $\mathrm{P}_{2} \mathrm{O}_{5}$ | 8 |  |  |
| K 2 O | 24 |  |  |
| MgO | 3.0 |  |  |

WHEN YOU HAVE FILLED OUT THIS SHEET, GIVE IT TO LAB ASSISTANT TO RECEIVE CORRECT IONS PRESENT

## THIS IS GIVEN AFTER COLLECTION OF 2.1.1. answer

2.1.2. Calculate the mass fraction of each ion and use the charge balance to determine what other ion has to be present. (7p)

Feel free to use the extra columns for notes, other quantities or intermediate results.
You may use different methods of calculating the mass of salts. Show you calculation on a separate coloured sheet labelling it 2.1.2 and writing your country and team number. Table below can be skipped then.

|  | Mass <br> fracti <br> on, <br> $\%$ | lon | Mass <br> fraction <br> $\%$ |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| N | 10 | $\mathbf{N O}_{3^{-}}$ |  |  |  | Marks |  |
| N | 5 | $\mathbf{N H}_{4^{+}}$ |  |  |  |  |  |
| $\mathrm{P}_{2} \mathrm{O}_{5}$ | 8 | $\mathbf{H P O}_{\mathbf{4}^{2-}}$ |  |  |  |  |  |
| $\mathrm{K}_{2} \mathrm{O}$ | 24 | $\mathbf{K}^{+}$ |  |  |  |  |  |
| MgO | 3.0 | $\mathbf{M g}^{2+}$ |  |  |  |  |  |
| Total |  |  |  |  |  |  |  |

2.2. Calculation of the composition of the fertilizer
2.2.1. Indicate which salts you will use by circling the correct ones. (5 p)
$\mathrm{KCl}, \quad \mathrm{KNO}_{3}, \quad \mathrm{~K}_{2} \mathrm{CO}_{3}, \quad \mathrm{Na}_{2} \mathrm{CO}_{3} \cdot 10 \mathrm{H}_{2} \mathrm{O}, \quad \mathrm{CaCl} \cdot 2 \mathrm{H}_{2} \mathrm{O}, \quad \mathrm{Mg}\left(\mathrm{NO}_{3}\right)_{2} \cdot 6 \mathrm{H}_{2} \mathrm{O}$, $\mathrm{MgCl}_{2} \cdot 6 \mathrm{H}_{2} \mathrm{O}$,
$\mathrm{K}_{3} \mathrm{PO}_{4}, \quad \mathrm{~K}_{2} \mathrm{HPO}_{4} \cdot 3 \mathrm{H}_{2} \mathrm{O}, \quad \mathrm{Na}_{3} \mathrm{PO}_{4} \cdot 12 \mathrm{H}_{2} \mathrm{O}, \quad \mathrm{Na}_{2} \mathrm{HPO}_{4} \cdot 6 \mathrm{H}_{2} \mathrm{O}, \quad \mathrm{NH}_{4} \mathrm{NO}_{3}, \quad \mathrm{NH} 4 \mathrm{Cl}$

Marks for selected salts
2.2.2. Indicate mass of each salt you need to create 100 g of fertiliser salt mix (10 p) Feel free to use the extra columns for notes, other quantities or intermediate results

| Compound | $m_{(100 \mathrm{~g}}$ <br> fertiliser), g |  |  |  | Marks |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
|  |  |  |  |  |  |
| Total |  |  |  |  |  |

### 2.3. Preparation of the feeding solution

2.3.1. Indicate the mass of each salt that you have weighted (1p)

| Compound | m per 1 g fertilizer, g | Marks |
| :--- | :--- | :--- |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |

2.3.2. Label the flask and tube with your country code and team A or B. The lab assistant after completion of work will measure conductivity of the sample to assess the quality of your work. They will also inspect your prepared salt mix (6 p)

Filled out by lab assistant

| Criteria 1 | Marks: |
| :--- | :--- |
| Criteria 2 | Marks: |
| Criteria 3 | Marks: |
| Criteria 4 | Marks: |
| Total |  |

### 2.4. Impact of water hardness

2.4.1. Enter your calculated concentration of $\mathrm{Mg}^{2+}(1 \mathrm{p})$

| Concentration, mmol/L | Answer | Marks |
| :--- | :--- | :--- |
| $\mathrm{Mg}^{2+}$ |  |  |

2.4.2. Complete the table by writing the magnesium ion amounts in the feeding solution, if adjustment is needed and adjusted amounts (1 p).

| Ion | n, mmol | Adjustment, <br> mmol | $n($ adj.), <br> mmol | Marks |
| :--- | :--- | :--- | :--- | :--- |
| $\mathrm{Mg}^{2+}$ |  |  |  |  |

2.4.3. Mark the salts (with $Y / N$ in the table) the mass of which have to be changed to prepare a salt mix for feeding solution made in groundwater. If changes, write $Y$, if not $N(5 p)$

| Compound | Mass changes needed <br> if groundwater used <br> $(\mathrm{Y} / \mathrm{N})$ | Marks |
| :--- | :--- | :--- |
|  |  |  |
|  |  |  |
|  |  |  |
| Total |  |  |

2.4.4. Write down the chemical formula of the compound formation of which does not allow to use the groundwater for preparation of the feeding solution (2p)

| Chemical formula | Marks |
| :--- | :--- |
|  |  |

## Problem 3 Water transport in plants

3.1. Next to the number of the blank field, write the letter(s) that correspond to the correct terms when filling in the text in the task. (8p)

| Blank No | Letter | Blank No | Letter | Marks |
| :--- | :--- | :--- | :--- | :--- |
| 1 | and | 9 |  |  |
| 2 | and | 10 |  |  |
| 3 |  | 11 |  |  |
| 4 |  | 12 |  |  |
| 5 |  | 13 |  |  |
| 6 |  | 14 |  |  |
| 7 |  | 16 |  |  |
| 8 |  |  |  |  |
| Total marks |  |  |  |  |

### 3.2.1. Call the lab assistant to evaluate your selection (1 p)

Filled out by lab assistant

| Marks for quality ___ Signature | Marks: |
| :--- | :--- | :--- |

3.2.2. Scientific drawing of a vascular bundle ( $8 p$ ) For this task you can skip adding title and for labeling use letters from task 3.1.

| Drawing | Marks |
| :--- | :--- |
|  |  |
|  |  |
|  |  |

Observe the whole stem cross section. Answer questions concerning cross section. Mark the letter of the correct answer

### 3.2.3. (1 p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |

3.2.4. (1 p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |

3.2.5. (1 p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |

3.2.6. (1p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |

3.2.7. Pick correct dimension of a vascular cell diameter (2 $p$ )

| Answer (a,b,c,d,e,f,g) | Marks |
| :--- | :--- |
|  |  |

3.2.8. Read the descriptions and mark which are applicable to the phloem $(P)$, which to xylem $(X)$ which to both ( $P X$ ) and which to none (0) (5 p)

| Description | Tissue ( $P, X$, <br> $P X, O)$ | Marks |
| :--- | :--- | :--- |
| Move substances from roots to leaves |  |  |
| Are made from elongated, dead cells with thick cell walls that <br> provide support and durability |  |  |
| Can contract to facilitate movement of liquid |  |  |
| Will transport molecules against concentration gradient |  |  |
| Will be tapped by aphids to obtain nourishment |  |  |
| Total marks |  |  |

3.3.1. Mark the letter of the correct answer (1 p)

| Answer (a,b,c,d,e,f) | Marks |
| :--- | :--- |
|  |  |

3.3.2. Write an equation to calculate the height of the water column in a glass capillary under the given conditions. You may use the symbol of the unknown physical quantities (1 p)

| Answer (equation) | Marks |
| :--- | :--- |
|  |  |
|  |  |

3.3.3. Calculate the height of the water column if a student performs simulation in the lab with water and glass capillary with the same diameter. Give your result expressed in cm and round it as integer.(1 p)

| Answer | Marks |
| :--- | :--- |
|  |  |

3.3.4 Draw biological drawing of stoma and surrounding epidermal cells from both sides of a leaf. Label opening with A, guard cells with B, and epidermal cells with C (10 p)

| Drawing | Marks |
| :--- | :--- |
| Upper side of leaf |  |
|  |  |
|  |  |
|  |  |
| Lotal marks |  |

3.3.5. Provide your measurements of stomatal number. (6p)

| No. | Lower surface | Upper surface | Marks |
| :--- | :--- | :--- | :--- |
| Stomata in field 1 |  |  |  |
| Stomata in field 2 |  |  |  |
| Stomata in field 3 |  |  |  |
| Average stomata <br> in field |  |  |  |
| Total |  |  |  |

3.3.6. Mark the letter of the correct answer (1 p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |

## Problem 4 Water demand by plants

### 4.1. Call the lab assistant to evaluate your pigment extract (1p)

Filled out by lab assistant

| Marks for quality | Signature | Marks: |
| :--- | :--- | :--- |

4.2. Write down measurements (4p)

| Wavelength, $\mathbf{n m}$ | A, AU | Marks |
| :--- | :--- | :--- |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |

|  |  |  |
| :--- | :--- | :--- |
|  |  |  |
|  |  |  |
|  |  |  |
|  |  |  |

### 4.3. See Graph2 attached (4 p)

Filled out by evaluator

| Marks for graph ___ Marks: |
| :--- | :--- |

### 4.4. See Graph1 and Graph2 attached (4p)

Filled out by evaluator

| Marks for intervals marked on graph ________ Marks: |
| :--- | :--- |

### 4.5. See Graph1 attached (3p)

Filled out by evaluator

| Marks for interval fractions marked on graph __ | Marks: |
| :--- | :--- |

### 4.6. See Graph1 attached (3p)

Filled out by evaluator

| Marks for radiation power per square metre calculated ___ | Marks: |
| :--- | :--- |

4.7. Write down your calculated $k$ and show your calculation (2p)

|  | Your answer | Marks |
| :--- | :--- | :--- |
| Show calculation |  |  |
|  |  |  |
| $k$ |  |  |
| Total marks |  |  |

4.8 Determine the normalised average absorbance for each interval of the absorption spectrum. See Graph2 attached (3 p)

Filled out by evaluator
Marks for intervals marked on graph $\qquad$ Marks:
4.9. Write down how much light is transmitted through the sample if the absorbance is 2 , and show your calculation (3 p)

|  | Your answer | Marks |
| :--- | :--- | :--- |
| Show calculation |  |  |
|  |  |  |
| Transmittance |  |  |
| Total marks |  |  |

4.10. Determine the absorbed energy per second (absorbed radiation power) for each wavelength interval, and show your calculation for one wavelength (3 p)

| Interval <br> wavelengths, <br> nm |  |  | Absorbed <br> energy per <br> second | Marks |
| :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |
|  |  |  |  |  |

|  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  | [ |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  | — |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |

| Calculation of absorbed energy per second for first interval | Marks |
| :--- | :--- |
|  |  |
|  |  |

4.11. Write down your calculated sum in the answer sheet (1 p)

| Total absorbed radiation power | Marks |
| :--- | :--- |
|  |  |
|  |  |

4.12. Write down your calculated value for required water, show calculation (2p)

| Calculation of how much water is needed in one hour per square metre <br> of cucumber leaf | Marks |
| :--- | :--- |
|  |  |
|  |  |

## Problem 5 - Exploring hydroponics

### 5.1. Write down the measurements (1p).

|  | Your answer | Marks |
| :--- | :--- | :---: |
| Initial length of tubes |  |  |

5.2. Write down the measurements and do the calculations for each tube length in the table (3p)

|  | Length of <br> tube, $m$ | $h, m$ | $\Delta p, P a$ | $\Delta V, m l$ | $\Delta t, s$ | Marks |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |
| Total marks |  |  |  |  |  |  |

5.3. Choose the final setup parameters for the rest of the experiment (2p)

|  | Length of <br> tube, $m$ | $h, m$ | $\Delta p, P a$ | $\Delta V, m l$ | $\Delta t, s$ | Marks |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| long |  |  |  |  |  |  |
| short |  |  |  |  |  |  |

5.4. Show calculations and final results for $Q$ with the final setup. (2p)

|  | Calculations | Marks |
| :--- | :--- | :--- |
| Q for the <br> longest <br> tube |  |  |
|  |  |  |

5.5. Fill in your data in the table (4p)

| Length of tube, <br> $m$ | $\Delta t, s$ | $\Delta V, m l$ | $Q, m / s$ | Marks |
| :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |

5.6. Write trendline equation here (2p)

|  |  | Marks |
| :--- | :--- | :--- |
| Trendline equation |  |  |
|  |  |  |

5.7. Write down your obtained $n(2 p)$

|  |  | Marks |
| :--- | :--- | :--- |
| $n$ |  |  |

5.8. Show calculations and write the answer. (2p)

|  | Calculations | Marks |
| :--- | :--- | :--- |
| Length of <br> the tube |  |  |
|  |  |  |

## Problem 6 - Setting up the greenhouse.

### 6.1. Mark the letter of the correct answer (1p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |

6.2. Mark the letter of the correct answer (1p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |

6.3. Indicate what would happen if you would plant cucumbers to have larger or smaller leaf area index. Consequences that you would observe in case of larger index mark with $L$ and smaller S, 0 if none fits. (4p)

|  | Answer (L, S, 0) | Marks |
| :--- | :--- | :--- |
| Leaves would receive to little of light |  |  |
| You would experience economic losses |  |  |
| Air in the greenhouse would be too humid |  |  |
| Total marks |  |  |

6.4. Write your calculations. (2p-1p for correct assessment of cucumber leaf area, 1 p for calculating the planting area)

| Calculations | Marks |
| :--- | :--- |
|  |  |
|  |  |

6.5. Mark the letter of the correct answer (1 p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |

6.6. Mark the letters of the correct answers (2 p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |

6.7.Mark the letter of the correct answer/s (1 p)

| Answer (a,b,c,d) | Marks |
| :--- | :--- |
|  |  |
